To Whom This May Concern:

I am writing this letter is desperate concern of keeping XM radio and all of it's helpful information live and on the air of various channels. I am a Owner -Operator of a semi delivering many needed products across the country 7 days a week. This occupation unfortunately takes me through various types of weather throughout many states on daily basis.

If I happen to hear of a fatal weather conditon that may be approaching, thanks to XM radio I can turn the weather channel on 24 hrs. a day 7 days a week and if necessary alter my route, and still be safe in my traveling and meet whatever deadlines are necessary at the time. Also, the traffic condition information that is provided to me through XM radio is also a very helpful tool.

I have been a customer of this service for as long as it has been offered and available. without this service I may be facing a very challenging and complicated situation in my career. Please, reconsider the need of this service and continue providing each and everyone one of it's listeners.
No to Petition 14-160.
